

NOTICE OF PLANT DESIGN REGISTRATION

Plant Type	Hoist - Scissor Lift
Representational Drawing(s)	13896-03
Design Description and Extent	Model/ID No. S3970RT V4
Technical Information	Max SWL 350 kg, Max Working Height 13.8 m, Max Free Standing Height 12.95 m and Power Source Diesel Engine
Maker	Snorkel Elevating Work Platforms
Confirmation Number	V1400747
Date of Confirmation	29 APR 2014
Published technical standards or engineering principles <small>(as listed by designer and confirmed by design verifier)</small>	AS1418.10 - 2011 Cranes, Hoists and Winches Part 10 Mobile Elevating Work Platforms. EN280 - 2001 + A2 - 2009 Mobile Elevating Work Platforms.

IMPORTANT INFORMATION

1. This notice applies only to the above design, which has been registered according to the above-named Regulations. WorkSafe has not verified that the designer has complied with the design obligations prescribed by the Regulations or the above mentioned technical standards or engineering principles.
2. The plant owner will require this confirmation and, therefore, a copy of it should be supplied to the manufacturer, so that it can in turn be provided to the supplier and owner with the plant or equipment.
3. The Regulations require the designer to keep and maintain, in a suitable state for examination, all records that the Regulations require for 10 years.
4. WorkSafe reserves the right to audit the registered design at any time to assess compliance with the above Acts and Regulations. If an audit is undertaken, WorkSafe may ask the person seeking registration or the plant owner or both to supply detailed information relating to the design of the plant. Design systems of work and documentation may also be audited. If an audit identifies non-compliance with the Acts and Regulations, all plant built to that design may require modifications and may be prohibited from use.
5. This notice is automatically invalidated if the design is altered to an extent that requires new measures to control risk. A person must not use, or cause or allow plant manufactured to the altered design to be used at a workplace unless WorkSafe has confirmed registration of the alteration.
6. You should quote the registration number in all correspondence to WorkSafe regarding this design. Any queries should be addressed to the WorkSafe's Licensing Branch, 1300 852 562.
7. This notice will also be considered a notice of Plant Design Registration under the Equipment (Public Safety) Regulations 2007.

Leanne Harwood
Licensing Manager

Design Registration has been granted exclusively to Snorkel Australia ('the Importer') specifically for the machine model stated on the Certificate of Design Registration overleaf. Registration was granted on the basis of independent verification of compliance of the design of this model with the requirements of Australian Standard AS1418.10 - whichever published version of AS1418.10 prevailed at the time this model was originally imported.

This Certificate of Design Registration is provided by Snorkel Australia to the owner of this model machine for the purpose of compliance with the "Duties of Importers" requirements in individual Australian State & Territory Work Health & Safety Regulations. The Registration Number applies ***only*** to examples of this model that were originally imported and sold by Snorkel Australia; it does not apply to any examples of this model that were privately imported and for which AS1418.10 compliance cannot be verified. This Certificate and/or Design Registration Number may not be transferred to any other party without the express written permission of Snorkel Australia.

Machines imported and sold by Snorkel Australia that have since been modified without the written consent of Snorkel Australia, may no longer comply with the requirements of the Australian Standard this particular Design Registration is based on the verification of. In such instances this Design Registration Number cannot be applied, and the owner of the machine assumes full product liability and responsibility for verification of current Australian Standards compliance, and Design Registration for the modified design.
