MONITOR 2714 SPIDER LIFT

MONITOR 2714

The Monitor 2714 Spider Lift never ceases to impress with its huge up-and-over outreach. At only 1.99 m stowed height, this Spider Lift delivers the most reach from the smallest dimensions.

An unbeatable machine for confined area access to taller heights.

The tracks expand to 1290 mm for stability off-road, and retract to only 890 mm which allows the 2714 to go anywhere!

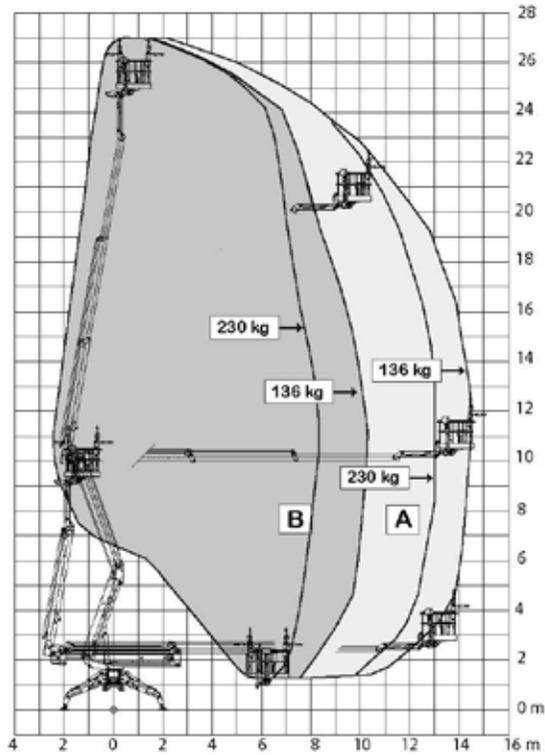

Uniquely these Spider Lifts can rotate a full 360 degrees even when legs are set in the narrow position, and up to 15 m of horizontal outreach can be achieved in wide set.

Strength and rigidity are a standout feature of this machine; the first time you take this one up off the ground you come back wearing a very wide smile. It has to be experienced to believe how stable this platform is, making it ideal for the most demanding of applications.

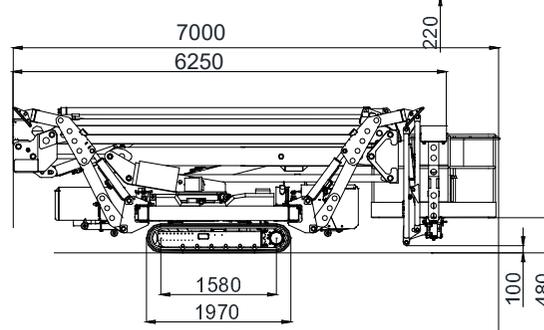

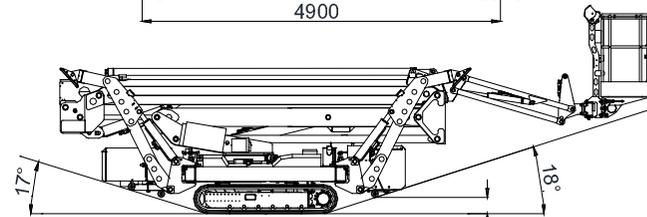

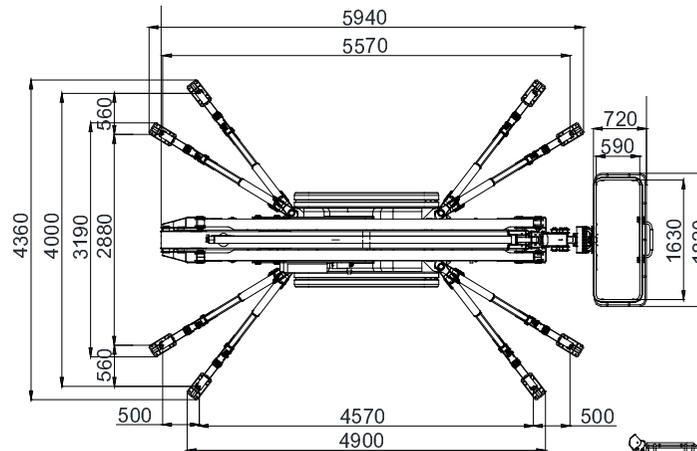

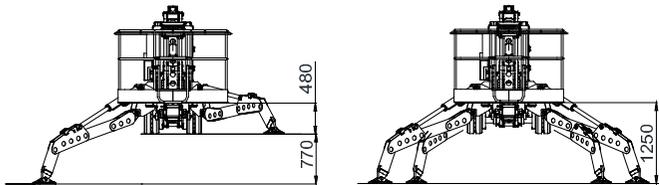

TECHNICAL SPECIFICATIONS

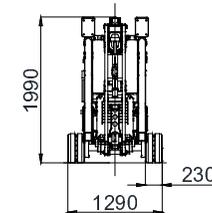

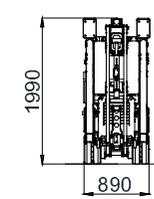

B = Narrow Set
A = Wide Set

Max working height	27.00 m
Max working height in narrow set	27.00 m
Max horizontal outreach	15.10 m
Max rated capacity	230 kg
Weight: Engine + 240V	ED 5200 kg
: Engine + Lithium Batteries	LBD 5340 kg
Turret rotation	360°
Basket rotation	172°
Ground pressure driving (approx)	70.15 kN/m ²
Max stabiliser force	34.4 kN
Max stabiliser pressure (std foot pad)	673 kN/m ²
Traffic load (live load) travelling	5.42 kN/m ²
Traffic load (live load) stabilised wide	2.84 kN/m ²
Traffic load (live load) stabilised narrow	2.90 kN/m ²
Auto levelling	Std
Max slope for stabilisers (no extra pads)	13°
Gradeability lengthwise	17°
Gradeability sideways	12°
Standard engine	Kubota 22 Hp Diesel
Dual power options	240V or Batteries or Lithium
Expanding tracks	Std
Max drive speed	1.8 km/h
Radio control	Std
Electric emergency lowering	Std
Hydraulic winch	Optional

(All specs E&OE and subject to change)
